A NEWSPAPER DEVOTED TO THE HOME CIRCLE

VOLUME I.

RICHMOND, KENTUCKY, TUESDAY, MAY 20, 1913.

NUMBER 20.

ANSWER TO PROTEST AGAINST ALIEN LAND LAWS APPROVED BY CABINET.

### BOTH DOCUMENTS A SECRET

Their Publication in Both Countries Simultaneously Is Being Arranged for, Following Gov. Johnson's Signing Bill Which Caused Imbroglio.

Washington, May 19 .- With the expectation that 'he federal government will defend the Californians against the Japanese protests against the anti-alien legislation adopted by the Pacific state's legislature and with the American reply to that complaint ready for transmission to the Japanese embassy here, the seriousness of the situation will now largely depend the reception which will be accorded the answer by the Japanese public as well as to the protest which called it forth.

Neither of these documents is ready for publication, though arrangements are already under way for their simultaneous publication here and in Japan. The reply of the United States has been prepared, and was discussed at length Friday at the cabinet meeting.

Neither the president nor Secretary of State Bryan will discuss either the terms of the protest or the reply, or the probable time at which the latter will be transmitted to Ambassador Chinda. It is believed, however, that the reply will not be sent until Governor Johnson has actually affixed his signature to the bill which has caused all the trouble.

Just how serious the situation is, no one in authority here will discuss But the mystery which has enveloped the present state of the negotiations has given rise to a general feeling cf apprehension, as well as to all reports of speculations concerning the attitude of the two governments.

Secretary Bryan feels that the situation is exceedingly delicate, and seems to fear that agitation, both here and in Japan, that have nothing to do with the subject, may make a lot more trouble at any time.

### SPARKS FROM THE WIRE

Tacoma, Wash., May 15 .- Four persons were killed and seven seriously injured when a train on the Oregon-Washington line, bound from Portland to Seattle, was ditched near Lakeview

Heligoland, Germany, May 16 .-Four German bluejackets were killed and three others seriously injured Wednesday by the explosion of a cylinder in the engine room of torpedo boat "S-148."

New York, May 17 .- There is no agreement or understanding of any kind to fix prices in the steel, industry, James A. Farrell, president of the United States Steel corporation, testified at the hearing Thursday in the federal suit to dissolve the corporation as an illegal combination.

Munich, Bavaria, May 15 .- Gen. von Lewinski, the Prussian military attache to Bavaria, was killed here Tuesday by a supposed lunatic.

Springfield, Mo., May 15 .- Harry Dishman and Lewis Johnson, the sixteen-year-old convicted murderers who escaped from the city jail and were at liberty six hours before being recaptured, were sent to the state penitentiary at Jefferson City, but not before they had attempted to set fire to the

Atlanta, Ga., May 17.-Ecclesiastical politics were rebuked by the general assembly of the Northern Presbyterian church Thursday when Rev. John W. Stone of Chicago was chosen moderator by an overwhelming majority.

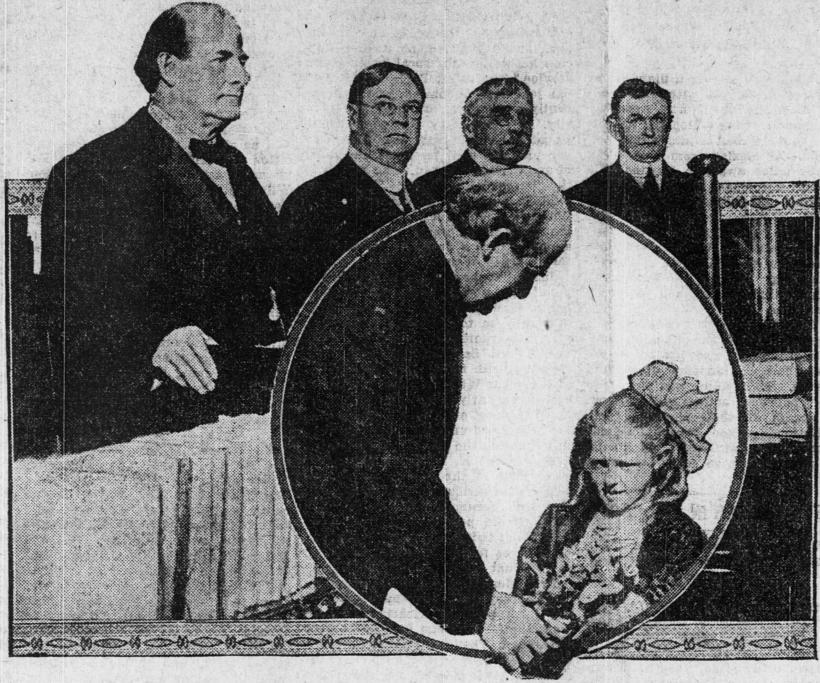

### JOHNSON MAY FIGHT AGAIN

Manager of Luther McCarthy Seeks Match With Convicted Negro Pugilist.

Chicago, May 17.—If Federal Judge Carpenter, in whose court Jack Johnson, the negro pugilist, was convicted of violating the white slave law, will consent, Johnson and Luther McCarty, white heavyweight champion of the world, will meet. Arrangements for the match were agreed to by Billy Mc-Carney, manager of the white champ, and Johnson.

Johnson said that his statement of a few cays ago that he was "broke" was absolutely true. He said he needed money now worse than he had ever needed it. When asked if he would meet Luther McCarty, he showed his gold teeth, and said he would be glad of the chance to share the gate receipts of a championship battle.

"The only thing that stands in the way." said Johnson, "is the consent of Judge Carpenter."

SECRETARY BRYAN ADDRESSING CALIFORNIA LEGISLATURE

A remarkable photograph taken during Secretary Bryan's recent visit to California to attempt to influence the legislature to conform to President Wilson's views in relation to the proposed alien land law. On the left of Secretary Bryan are: Governor Johnson, Lieutenant Governor Wallace and Speaker Young. The insert shows Secretary Bryan receiving flowers from Eveline E. Meger.

SCORES INJURED AND MANY FLEE MINING DISTRICTS.

Anxiety Is Caused Among Workers of Three States by Explosions Which Began a Week Ago.

Pittsburgh, Pa., May 17.-Much anxiety is being caused in western Pennsylvania, West Virginia and Maryland by numerous explosions of dynamite and powder coupled with attempts to blow up heavily filled magazines and a searching investiga-

tion into the matter seems warranted. A dozen persons have been killed, scores have been injured, some fatally; much property has been ruined and hundreds of people have been so frightened that they have left the vi-

Beginning Saturday, May 10, when 500 sticks of dynamite exploded in the magazine of the Sunshine Coal and Coke companys' mine near Masontown, Pa., resulting in the death of four and injury of twoscore, and ending Wednesday with the explosion of 1,700 pounds of dynamite and seventy kegs of powder stored in the magazine of the Consolidated Coal

company at Eckhart, Md. Last Monday an attempt was made to blow up a passenger train at Leckrone, Pa. A track-walker found nine sticks of dynamite under the joints of the rails of the Monongahela railroad. Within seventy-five yards of the railroad was located the plant of new giant battleship disappeared the \$20,000, testified that he had agreed the Cameron Powder company, con- situation became so serious that steps to pay Dr. John W. Russell, then sutaining 20,000 pounds of powder and had to be taken by the department perintendent of the asylum, \$20,000 to 500 pounds of dynamite.

In a premature explosion of dynamite at Parkersburg Tuesday, five men were blown into a stream.

### TARIFF HEARINGS ARE DENIED

Senate Defeats Motion to Permit Public to Express Their Views on Underwood Bill.

Washington, May 19.—The Penrose-La Follette motion instructing the senate finance committee to hold public hearings on the Underwood tariff bill was lost by a vote of 41 to 36. Two Democrats, Senators Ransdell and Thornton of Louisiana, voted with the Republicans, while Senator Poindexter of Washington registered his ballot with the Democrats.

This motion has held up consideration of the Underwood bill for more than a week and its defeat came up as a climax to an exciting debate during which Senators La Follette. Smoot, Gallinger, Jones and Clark of Wyoming flayed the Democrats for ordering secret conferences on the Georgia, Walsh and James, Democrats, upheld the action of their

Schoff Decree Is Signed. New York, May 19 .- A final decree of divorce to Fritzi Schoff, freeing the actress from John Fox, Jr., her novelist husband, was signed by Supreme Court Justice Keogh at White Plains which has been vigorously opposed the idol of the boulevards and num-Friday. The suit was not contested by organized labor.

Death Blow Dealt to Soft Drink Retailers Selling Drinks Containing Small Percentage Alcohol.

Western Newspaper Union News Service. Frankfort, Ky.-The provision of Chapter 94 of the Acts of 1912, excepting from the prohibition of the sale of liquor in "dry" territory beverages on which the United States governa special tax on retail liquor dealers, eradication of bovine tuberculosis is is unconstitutional, in the opinion of making headway. Many towns realize 000 prize offered by the municipal gan, who so advised A. T. Byron, Maycr of Owingsville. Mr. Logan takes the view that the provision violates Section 60 of the Constitution, which declares that the General Assembly shall not delegate its authority or pass a law to take effect upon the approval of any other authority than the General Assembly itself. By excepting from the operation of the local option prohibition beverages, for the sale of which the government does not levy a special tax, he thinks the General Assembly has delegated to Congress the cleaned their herds of this disease." authority to determine what beverages can be sold in local option territory in Kentucky.

Mayor Byron wrote to ask for a construction of the law relating to the of the Southern Baptists in session at licensing of the sale of soft drinks. St. Louis elected the following officers: Mr. Logan said "the city has a right Rev. Dr. Edwin C. Dargan, Macon, Ga., to impose a license on persons en president; M. H. Wolf, Dallas, Rev. # SHOW FARMERS HOW

BETTER METHODS OF MARKET ING TO BE TAUGHT BY THE GOVERNMENT.

### NEW BUREAU IS PROPOSED

Co-operative Selling by Farmers Will Result in Great Benefits Not Only to the Producer but to the Consumer as Well.

By GEORGE CLINTON. Washington.-There is now in the

agricultural department a new division known as the "rural organization service." Its chief, T. N. Carver, who has just been appointed, was until reever made on the North American cently a professor at Harvard university. If Secretary of Agriculture scure young Cuban aviator, flew over | Houston has his way, Professor Carment does not require the payment of below the cost of production. "The Fla., 90 miles away, to Havana in a of another new bureau to be known as Moissant aeroplane, winning the \$10,- the "bureau of markets." There is already a bureau of markets' organization, but it is unofficial, and Mr. Houston will ask congress to give definite approval with a definite appropriation for a bureau of this kind.

> Just what the new service will do in detail has not yet been determined, but it is well known that a primary duty will be to study the economics of the marketing of products. It is known that Secretary of Agriculture Houston, with the complete sympathy of President Wilson, will interest himself particularly in an attempt to cut down the cost of living by cutting out inefficient and unbusinesslike methods in marketing the products of the farm.

> Dr. George K. Holmes, who is the statistician of the division of production and distribution, has found out that the consumer pays for his vegetables, fruit, poultry and dairy products about twice as much as the farmer receives for them.

What Farmer Should Do.

Dr. Holmes has said on this matter: "A survey of the systems of marketing farm products clearly discovers what the farmers can best do to their advantage. They must associate themselves together for the purpose of assembling their individual contributions market news at places to which it is practicable to send their products, to sell in a considerable number of markets if not in many markets, and to secure the various other economic gains of associative selling. But farmers need some help in establishing associations. They always need a leader for such purposes, and there may be no leader. "A division of markets could per-

form excellent service in helping farmers to help themselves to organize marketing associations. These associations could either handle their products until sold in various markets or could ship their products to a nonco-operative marketing agency, which would take charge of the entire business of distributing from a central receiving point.

"It seems not always feasible to market products co-operatively, or, at any rate, the producers are not always disposed to do so. However, that may be, there are many non-co-operative marketing agencies in this country that are performing excellent service for farmers, and some of them are doing business of immense proportions. cession. The center of attraction for A division of markets, equipped with the youngsters was the park depart- a corps of competent field agents, could get into touch with farmers for ber of regulation circus cages con- the purpose of promoting the organization of marketing associations wherever the farmers request assistance or information; the agent could meet the assembled farmers and practically organize them if they desired. It can hardly be doubted that this service can be successfully performed and, eventually, with results greatly beneficial to farmers. The traveling field agents also could perform good service in examining into the affairs out of the whole miserable condition of weak and unsuccessful marketing of things." associations and advise changes for

their improvement."

To Probe Civil Service. It is virtually settled that there is to be a sweeping investigation of the civil service law under which thousands upon thousands of Americans hold their places. Of course there will be a feeling that the investigation is prompted by the desire of the dominant party to create vacancies for party workers, but it the civil service, and would strike only a few of the heads, and it would strike nobody if an inquiry should divulge that there is nothing wrong with the system as it stands. As matters are it seems that nearly

everybody in congress, irrespective of every once in a while criticism is the mouths of Democrats, Republicans and Progressives, while debates are Mrs. Hill Gives Oldest Man Bouquet. on in either house. The civil service commission always has insisted that penteur, this state's oldest man and non-partisanship methods have been a territorial pioneer, celebrated his adhered to absolutely in the giving of and representatives, but on the pres-The Sinking Fund Commission au a resident of the city more than 65 the civil service law, and the probability is, everybody says, that an investigation will show this to be the ing of the cab. fact. The trouble, members say, with inet officers on the patronage matter, fully reveals himself to his brothers. the civil service system is not so and act as the court of last resort To walk in the light alone will enable office, or that favoritism is shown in The cabinet officers themselves are is goodness in action." This is a tenemployes take advantage of the fact every day to the duty of hearing why that they are under civil service and Melancthon Smith is a much better think they are there for life, to loaf man for the positon of collector of questions as Emotion and Religion, much working service as they think it | Simpson.

is necessary to give and yet to save their positions.

Practical Knowledge Needed. Men interested in the safeguarding of the civil service law say that it has been shown many times that persons who can pass the best civil service examinations do not always make the best employes. This means, of course, that a good many men have "book learning," which enables them to get into the service by the examination route, but when they get in it is found that their "book learning" is not anywhere near so much service to the government as practical knowledge would be.

More and more the civil service chiefs have attempted to make the examinations practical, but even the best tests of practical knowledge fail at times when they are reduced to question form.

An investigation of the civil service which it is promised will be made, will go deep into all questions, and it is believed that the committee of congress which will conduct the inquiry will be able to recommend new legislation when the next session of congress opens in December. President Wilson, it is said, favors an investigation. As has been said, it is charged that a great many employes under the civil service lose their ambition to work as soon as they are "covered by the law." When it comes to a question of promotion political favoritism still rules, in places in the departments, and so frequently a man who is lazy, if he happens to be a favorite with someone in authority, can get promotion, while an ambitious man doing twice as good work as the other can get no promotion. This is a part of the system which congress says must be changed.

Joys of Official Life. United States senator told me a few days ago that out of his salary of \$7,500 he was able during the first year of his incumbancy to keep for himself only \$2,800. He said that he did not give the money away, but that he was multitudinous things could be done

to do when he first comes to Wash- sure our hearts. ington. It is especially true just at the present time, when there has been week's lesson we beheld these brotha change of administration. It is ers bowing before Joseph even as him probably no exaggeration to say that dream had indicated (37:5-8) and now every Democratic senator and every. Democratic member of the house of before him. They had bragged that representatives has in his office 1,000 applications for places under the government, and each maker of an application seemingly believes that he is the only proper person to whom a job should be given.

ily to do for himself.

The patronage business is driving some of the members of congress pretty close to the distraction point. They do not know what to do. They do not like to offend the place seekers, and yet they know that offense in a majority of cases will be taken, for, as one senator put it, "no man or woman believes that any other man or woman should be given the places which the first man and woman have asked for."

Busy Asking for Jobs. The senator who said that he was able to keep less than \$3,000 of his pay for himself declared that from the day he came to Washington after the new administration was inaugurated he had done little else than tramp the streets or ride in street cars from department to department, asking for a job here and a job there for this man or for that man. The senator said: "I am sick unto death of it and yet I can't help myself, nor is there, as far as I can see, any way

In about six or eight months it is pointive positions under the governyears to run, and so it is that even after the bulk of the places have tion would affect comparatively few of terships, collectorships and a dozen the holders of minor positions under or so other positions which will come vacant from time to time, and over which senators and representatives

must worry. Now, when one remembers that there may be a change of administration on March 4, 1917, the whole service. Ice that comes in contact party, wants to see the civil service of the coming six or eight months will law revised. This is plain because be repeated if another party should come into power, it will be repeated heard of the civil service system from in part if the Democrats remain in power, but with another man than Mr. Wilson as president of the United

States. The wear and tear of the office-seekon their jobs, that is, to give just as the port of Bethune than is Jabez | What is it to walk in tellect and emotions.

### LESSON FOR MAY 25.

JOSEPH AND BENJAMIN.

LESSON TEXT-Gen. 43:18, 19, 22-34. GOLDEN TEXT-"He that loveth his brother abideth in the light." I John 2:10.

Jacob's plaintive cry as uttered in verse six of this chapter touches the heart of any father, but God is working out his plan unknown to Jacob. The brothers must have been impressed by Joseph's words that they should dare starvation, and their father's grief and anger, rather than return to Egypt without their brother Benjamin.

Judah, who before had sought to deliver Joseph, now offers to become surety for Benjamin. Thus it was that Jacob was persuaded, but to make as good an impression as possible with this strange Egyptian ruler Jacob directed that in addition to the necessary funds a present also be prepared (43:11), and remembering the strange return of the money before, that this time a double portion be taken. Two words will serve to divide the lesson. Fear and Feasting.

### Sought His Brother.

1. Fear, vv. 18-25. Ordinarily such an invitation to Joseph's house would be considered a great honor, but in this strange land and possessed by guilty conscience we read, "And the men were afraid." They who so carelessly sold their brother into slavery are themselves fearful of becomobliged because of the importunities ing "bondmen." Joseph did seek an of patronage hunters to spend virtu- occasion against them but it was that ally all of his time which was not he might secure his brother Benjamin spent in the senate chamber, in the (the others were only half-brothers), work of seeing men in authority in to abide with him in Egypt. Notice an endeavor to get government places how eagerly they explain the matter for constituents who thought they de- of the money in their sacks to the served them, and that this necessi- steward. The steward seeks to reastated his paying the greater part of sure them by telling them that, "your of products, to consider means of his salary for extra clerks, stenog- God, the God of your father hath givraphers and the like in order that the en you treasure in your sacks." Indeed God had, but he gave them their which a senator is supposed ordinar- blessing through another. Even so we through grace are blessed by This gives some idea of what a means of another who is our Joseph. senator or a member of the house has Christ is constantly seeking to reas-

II. Feasting, vv. 26-34. In last a second time they are on their faces it should never be so, "we shall see" (37:20) and indeed they are now seeing. That man who says to God "I will not" in the end is always compelled to do that very thing he in his pride said he would not do. Those who now mock our Joseph will in the end be compelled to do him obeisance, Rom. 14:11; Phil. 2:10. It was that Joseph might gain his brother Benjamin that he made all of these delays in revealing himself to his other brothers. As we have seen Benjamin was Joseph's only full brother 30:22 etc., and had had no part in the conspiracy against Joseph, hence Joseph's heart went out in great love for Benjamin, vv. 29-31. Joseph's tears were no sign of weakness but rather of strength, John 11:35; 2 Tim. 1:4. Such a manifestation of emotion ought never

### to be suppressed. Bold Pretense.

Joseph knew full well how to control his emotions (v. 31) till the proper time. Joseph (v. 27) is fearful that his father might have passed away yet his question does not reveal his identity. We wonder if there must not have been some suspicion in the minds of these Hebrews when their Egyptian host told the exact order of their respective ages, v. 33 (see also 44:12), and that perhaps Joseph might probable that most of the places, after all be alive. Doubtless their which are now sought by patronage guilty consciences were again aroused seekers because of the change of ad- when they beheld their youngest ministration, will be filled, and the brother singled out for such manifest senators and representatives will get partiality (v. 34). They, however, some relief, but it must be remember- made a bold pretense and "drank ed that there are a great many ap- largely," R. V., making merry to cover their confusion. If their drink caused ment which have a definite term of intoxication we do not know. Anyhow they are not held before us as seems likely that any such investiga- been filled there still will be postmas- does the biblical account demand that

we defend them in this matter. This was a strange feast. The sight of Benjamin recalls to Joseph the memories of home and mother and caused him to retire from the presence of his brothers lest he reveal himself through his tears. Returning he restrains his emotions while at the same time his brothers are laboring under the constraint of their fears. What differing emotions haunting memories recall. Joseph'a memories fill him with love and tenderness while the brothers are filled with suspicion of the entertainment they are

receiving. The golden text as applied to Joder lesson to relate to the young and for the older we might discuss such What is it to walk in the light. The in-

n All Ages It Has Been Demonstrated, but Many Still Are Slow of Faith.

This is an age of marvels; we accept without any debate the wonders of this age. The airship, wireless message and countless other new things, and we are ready for the new and even more wonreful. As yet many hesitate about the spiritual wireless that communes with God.

We are ready for mental telepathy of wordless communication with one "But, great Scott, it has been six another; but deny the possibility of weeks and four days since anybody hearing the voice of the Good Shepherd, which is corroborated by the voice within ourselves, the voice of conscience. Christ said, "My sheey hear my voice and they follow me." Paul said to King Agrippa: "I was Once upon a time there was a man pens, when I went on the water wag- not disobedient to the heavenly vision." who went a-courting, and he courted on, and I've been fighting the durned Paul refers to his experience while a widow. And the widow thought well est thirst you ever heard of every on his errand down to Damascus, when he heard the words: "Saul, Saul, why persecuteth thou me?" and in response replied: "Lord, what wilt thou have me to do?" The members of his traveling party testified they heard a voice, but saw no man. Undoubtedly Paul was in a mental unrest from his various experiences.

This same voice which stopped Paul so abruptly on his journey again was heard by him and it appeared in the form of a man with a call from Macedonia to go over and help them. Jacob wrestled with God in the form of an angel, one memorable night, and his life was different ever afterward. Pilate's wife was disturbed all night by a dream while Christ was on trial. The Psalmist, while in the cave for safely, sent wireless to God for heavenly reinforcements. John Bunyan in Bedford jail gave the world the immortal story, "Pilgrim's Progress." Yes, God's voice has come to us from the caves, from prison cells, the martyrs' ashes, from the time when Cain killed Abel down to the Boxer uprising in China.

It was on the night of a history-making crisis, the night of the world's greatest tragedy, when the cock crowed, and his voice called Peter to repentance. The voice of that rooster has been hearl echoing down through the ages. Its message and lesson now calls men to repentance.

God still speaks to men: His voice is understood. This is the age when the Holy Spirit approaches men. This voice each. By some the small-seeded value of the bush form. I grew the sponsibility should fall goes free."

King of the Garden, one of the large And upon whom falls the response Christ, after occupying the center of the stage, ascended to heaven and sat down upon his throne. At the same time the Holy Spirit, the promised comforter, descended to the world and sat down upon the throne here, and it is his dispensation now. He is in the center of the stage. He is striving with men, but men resist and wrestle with him like Jacob wrestled with the angel and Saul with the spirit.

The voice that comes from the experience of the rich man who awakened in torment comes to us from the parable of Christ. The rich man, from his own experience in hellwhich came as the result of spiritual carelessness and indifference-pleaded for an opportunity to go back and speak a warning message to his heedless brothers. The experiences of men around us today speak loudest of all REALIZE VALUE OF about the awfulness of sin and the

need of repentance. The call of the hours is: "Prepare to meet thy God." This is the voice afrect from God's word and to the spiritual instinct of self-preservation. birds fly south to a warmer climate. Humans have an innate instinct of selfpreservation that leads them to protect themselves against fire, against smallpox; they take life-preservers when they go to sea; they build lifesaving stations on the shore; they build navies and support them and train their gunners; they drill standing armies for time of need; and yet they prepare not to meet their God. They sin against their highest senses and noblest desires. They resist the kindliest importunities of the tenderest spirits; they heed not the voice o' Jesus, who says: "Come unto me. Whosoever will may come."

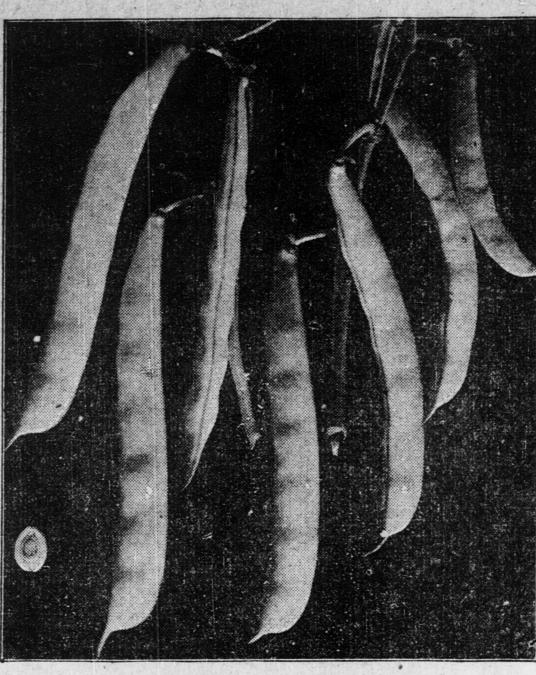

Lack of Faith.

"There is no greater unbelief than despondency," says Muller. That at. yard-planting-cheering reminders of titude of mind can be easily traced to lack of faith. The Bible somewhere. says "rejoicing in hope." It mentions it as one of the Christian virtues. Some people go about with a frown or scowl on their faces in order possibly to appear as a standing protest against the sin of the world. But it works the other way. There is nothing that tickles the devil so much as to have a Christian looking mad; for then he knows he has him wounded and in the hospital. There is a man in this town who has a fight on his of varieties to select from: hands all the time. He is kicked and pelted and cuffed about constantly, rose; yellow rambler, climbing rose; but he always carries a cheery smile prairie queen, pink climbing rose; and speaks in a hopeful voice. He seems to have the twelfth chapter of Romans tacked away in his heart, exhaling a fragrance every hour of the day. It is a real tonic to meet him.-Ohio State Journal.

Rev. Twomey Is Finally Convinced That Treatment of Saloons in That State Is Right Kind.

Conducted by the National Woman's Christian Temperance Union.)

HELPING TO PAY THE BILL

Next to Heredity Principal Cause of

Insanity Is Use of Alcohol, Says

Dr. Ferris.

America is not infrequently accused

of worshiping the "almighty dollar" to

the exclusion of higher interests and

pursuits, and the accusation is not en-

tirely unjustified. But at times one is

forced to doubt whether the nation, as

a whole, really has a clear conception

of the value of that all-powerful coin.

It is said on good authority that ap-

proximately \$21,000,000 is paid by the

people of this nation every year for

the support of the insane, and rarely

do you hear any taxpaper or decent

citizens objecting to this enormous tax

for the care of these unfortunates. Yet

Dr. Albert Warren Ferris, well fitted

to speak with authority, says that

"next to heredity the principal cause

of insanity is the use of alcohol, not

necessarily in excess but most fre-

quently in moderation"-an evil which

society not only tolerates but upon

which it sets the seal of its approval

by legalizing the business of making

and selling drink. Every tax-payer

should consider the question from the

viewpoint of the writer in Good

Health who says, "When you see your

neighbor come out of a saloon, remem-

ber that his whisky is but partly paid

WHO IS THE GUILTY PERSON?

Young Men Stand Brunt of Their

And upon whom falls the responsi-

said, as good Bishop Myriel in Hugo's

story said of Jean Valjean. "This soul

is full of darkness and sin is commit-

ted, but the guilty person is not the

man who commits the sin but he who

produces the darkness." In dealing

with crime then the question to be

considered is who roduces the dark-

for and that you pay the rest."

"If a rattlesnake crossed my path," said Rev. Joseph Twomey of Portland. Me., in a recent sermon, "I would not stop to argue with it, or plan to find an excuse for its existence, I would kill it at once. The saloon is a danger that must be wiped out. We punish the murderer whom drink has crazed so that he takes life in his drunken frenzy, but we do not touch the man who sold him the drink, nor do we attack the state that licensed him to sell it. I have lived in Maine over six years. I came with a prejudice against the prohibitory law. It took a great deal to convince me that it was worth while. But I now say what I have said many times, 'Portland, in proportion to its population, compared with those places with whose life I am intimate, is the cleanest place, so far as the evils from the liquor traffic are concerned, of which I know.' Maine's treatment of the saloon is the only one which can be defended."

Looks Silly.

Professor Nichols asks this pertinent question: "Is it common sense to license a man to sell liquor, ther lock up another man for buying it, and levy a tax on the citizen to take care of the man who buys?"

He says further that across the face of every tax receipt there should be printed in red ink, "The liquor traffic is a direct enemy of every taxpayer in the land."

Cause of Wealth.

The last census shows that Kansas is the second richest state in the Union, and that while the per capita wealth of its neighbor, Missouri, is \$300, that of Kansas is \$1,700. When a banker of another state asked for screen and yet there is no possibility an explanation why Kansas had se much larger per capita bank deposits than his own state the reply was "Kansas puts her money in the banks

ing, when one of them, whose father had ben ruined by liquor, said: 'Mamma says men that vote for sa loons are to blame for us having such a hard time.' It stung me, but I knew it was the truth, and I vowed that ! would wrong no more women and

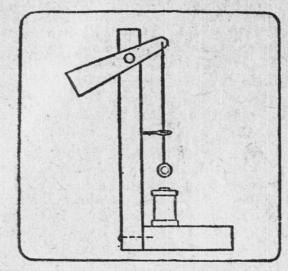

taste. The fat content ranges from to a young man is the drinking of liquor.-Andrew Carnegie.

### NEAT LITTLE ELECTRIC TOY

Semaphore May Be Operated by Use of Piece of Soft Iron and a Small Electro-Magnet.

Place a small electro-magnet upon a platform as shown, says the Popular Electricity. After securing the semaphore arm in place at the top of the post, fasten a string to it and pass

Toy Semaphore.

the string through a screw-eye guide. To the lower end of the string attach a piece of soft iron which should be neavy enough so that when current passes through the electro-magnet the soft iron will be pulled down and the signal arm raised.

### BEGINNING OF "MRS. GRUNDY"

Like Host of Other Famous Matrons, She Sprang From Fertile Brain of Literary Genius.

Mrs. Grundy is a comparatively recent creation. Like Mrs. Harris, Mrs. Gamp, Mrs. Malaprop, Mrs. Partington, and a host of other famous matrons, she sprang from the fertile brain of

literary genius. and she made her debut on the boards of a London theater in 1798, the vehicle of her maiden appearance being a comedy of some theatrical effective-

ness entitled "Speed the Plow." In the play Dame Grundy is the wife of a rich and successful farmer. Dame Ashfield, another farmer's wife, for whom she is the object of innocent envy and idolatrous adoration, can do nothing but talk of her and quote her and invoke her approval on every occasion and with reference to every

When she returns from the market she tells her husband that Mrs. Grundy's eggs and cattle are the best she has seen there; and when news comes that their daughter has married a title she exclaims:

"Our Nellie married to a real baronet! I wonder, Tummas, what Mrs. Grundy will say?" Her husband betrays great irritation at every such reference, and finally breaks forth: "Be quiet, woolye? Always din, ding-

ing Dame Grundy into my ears-what will Mrs. Grundy say? What will Mrs. Grundy think? Can't thee be quiet, let me alone, and behave thyself. Matty?" But the good dame is not to be silenced.

### A Sacred Secret.

The inspector in an English school was questioning the small boys. "Can you take your warm over

coat off?" he asked. "Yes, sir," was the ready response

"Can the bear take his warm overcoat off?" "No, sir."

"Why not?"

There was a perplexed silence. Then a little boy spoke up: "Please, sir, 'cause the good Lord alone knows where the buttons is."-National Monthly.

### RIDDLES

What did Adam first set in the garden of Eden? His foot.

Why cannot a deaf man be legally convicted? Because it is not lawful to condemn

a man without a hearing. Why are the pages of a book like

the days of man? Because they are numbered. How would you speak of a tailor when you did not remember his name?

As Mr. So-and-So (sew and sew). Why is a leaf of a tree like the human body?

Because it has veins in it. When are soldiers like good flannels?

When they don't shrink.

Why is a bad picture like weak tea? Because it is not well drawn. Why are two young ladies kissing each other like an emblem of Chris-

tianity? Because they are doing unto each other as they would men should do

unto them. Way is a dressmaker a deceptive woman?

Because she is not what she seams. Why is a thief called a failbird? Because he's been a robin.

When is a blow from a lady rather pleasant? When she strikes you agreeably.

Thrown on Subject by Professor Bailey of Cornell.

Professor Leon H. Bailey of Cordiscussed question.

He addressed a circular letter to all students of Cornell who, he had reason to believe, were born in the coun-

Among the replies received were 155 from persons bred on the farm, and planning to leave it. These assigned some 298 reasons why they were leaving the farm, the same being roughly classified as follows:

Question of financial reward.....101 Question of physical labor ..... 78 Question of social and intellectual

ideals ...... 78 Miscellaneous handicaps ...... 41 Professor Bailey summarizes as fol-

It is easy to say that this financial unsuccess is due to poor individual farming, but it is a question whether a good part is not due to causes that go further and deeper than this.

Farming is virtually the only great series of occupations that is unorganized, unsyndicated, unmonopolized. uncontrolled , except as it is dominated by natural laws of commerce and the arbitrary limitations imposed by organization in other business.

The replies of these serious-minded youths should also set every thoughtful person wondering what is to be the place of the farmer in the social scheme of things, and whether the present trend is doing him complete

About 17 per cent. of the replies considered that the farmer has dis-

tinct social disabilities. They suggest the question as to how far agriculture is to depend for its progress on the efforts of the individual farmer.

### BOTTLE DRESSED LIKE DOLL

Children Will Hold It Instead of Tossing It Aside, Thereby Getting Benefit of Hot Water.

The New York woman who devised the water bottle baby showed keen insight into juvenile psychology. Incidentally she overcame the child's nat-Thomas Morton, a forgotten London ural tendency to toss aside anything Permanent Polish Not Hard to Put To-

Water Bottle Baby.

wrong to say incidentally, for that was the prime motive of the invention. Any one who has tried to make a child hold a hot water bottle against it can testify to the difficulty of the task. The illustration shows how this may be done. A doll's head is fastened to the bottom of the bottle and a dress allowed to drape over it in loose folds. The garment completely conceals the bottle, and a child will nurse | cient soup stock to give the exact the doll and get all the benefit to be degree of consistency, allow to boil, derived from the hot bottle, without clear from scum, season with salt. knowing it is being "treated."

Simple and Practical Suggestions for Youth to Follow While on Hunting Expedition.

Don't pull your gun after you when wire fence. Push it through first, with the muzzle away from you.

hills or over rough ground don't turn it will get hard in cold water (not your gun loose. Hang on to it, and brittle). Just before you take it off keep the muzzle pointed the other

Don't shoot even approximately in the direction of anyone in the woods. as a glancing bullet may strike them quite a bit to one side of the object

in it," replied the father. "Oil nothing!" exclaimed Benjamin. "What that thing needs is cough

skup."

Strong and Rather Reliable Light Three Ways of Preparing Beverage Which is a Favorite in Every American Household.

For old-fashioned coffee the rule is nell university has been conducting one tablespoon for each person and some inquiries as to why boys leave one for the pot. To clear it take one the farm, which throw a strong and egg and the shell and beat it up with rather reliable light upon this much four tablespoons of cold water, using one-third of this for six tablespoons of coffee. The remainder of the eggwater will keep until used on the next two mornings.

Stir with a spoon so all the coffee may become coated with the egg mixture. Now turn into the coffee pot as many cups of boiling water as spoons of coffee used. Set on the fire and allow to boil briskly five minutes. Set back on the stove to "melt" for teu minutes.

Percolated coffee is the best coffee made and those who can afford a percolater will find that it will lessen the bills and that they can always have fine coffee. A cheaper grade of coffee can be used in a percolater than for "regulation" boiled coffee. Have the coffee pulverized, using one heaping teaspoon for each cup, turn over it the same number of cups of boiling water and allow it to percolate eight

If the frugal housekeeper will wash every egg she uses before breaking and will put the shells through a meat grinder she will find there is no need of using eggs to settle coffee. One tablespoon of the ground eggshell put into the coffee pot with the coffee and two tablespoons of cold water stirred well before adding the boiling water will make the coffee clear and amber colored.

Drip coffee can be made in any coffee pot. Take a cocoa can that will fit into the top of the coffee pot and punch fine holes in the bottom. Pat into it the coffee, ground very finely, the same proportion as for boiled coffee-one tablespoon to a cup of water. Turn the water slowly into the can, allowing it to drip slowly into the pot. Then put it on the back of the stove, where it will get hot but not boil. If desired very strong, take the coffee from the pot and turn it into the coffee can at the top for the second time. Keep hot, for after drip coffee cools it is not very good.

### MAKES STAIN THAT WILL LAST

gether, and Will Be Durable on the Floor Where It is Applied.

One of the most durable stains known, and not expensive, for either kitchen or dining-room, is made and applied as follows, says the Commoner. Have the floor perfectly clean, well scrubbed and dried, and for the average-size room get one-fourth ounce of permangnate of potash, add to a quart of water and apply quickly to the floor, using a flat brush; repeat the process until as dark as you want it. When dry, go over it with one or two coats of boiled linseed oil and turpentine, in proportion of two ounces of turpentine to a quart of the oil, stirred well. Let the first coat dry before applying the second, and it will pay you to apply the second coat. After drying there will be no more scrubbing necessary, but it can be wiped up with clear water and a cloth, drying with another cloth.

Puree of Celery.

Peel ten medium sized potatoes, wash well and set on the fire to boil with soup stock.

Cut into small pieces the outside stalks of twelve heads of celery and add them to the potatoes with two onions, one of them stuck with two cloves. When the potatoes are done, mash them up and dilute with suffipepper, nutmeg and a pinch of sugar, and before serving bind with one pint POINTERS FOR COUNTRY BOY of cream, six egg yolks and a quarter pound of butter. Add a pinch of chervil and serve with fried crust of bread

### Molasses Corn Balls.

Of course, you know how to pop you climb or crawl through a barb your corn. I get it in packages. Pop about your bread pan half full to try your luck. Take a cup of molasses, If you fall in going down steep and half a cup of sugar, and boil till add a pinch of soda to make it light. Pour over popped corn and stir till the molasses is well over the corn, then wet your hands in cold water and form the balls. I make my bread pan full and use two cups molasses and one cup of sugar.-Boston Globe.

### Mop for Vases.

A convenient little mop for cleaning bottles, tall vases, and other dishes having spots inaccessible to the dish mop or cloth can be made as follows: Cut a deep groove one-fourth from the end of a slender stick-any desirable length and no larger round than a pencil. Place a bunch of string cut largest gains. in two-inch lengths around the stick and tie them firmly in the groove with ends of the string down and tie again under natural conditions.

Cocoanut Pudding.

In one quart of boiling milk gradual-Father was examining the mechan- ly stir three-fourths cup farina. Let ism of an auto honker that was out this boil 15 minutes, then add one cup 4 ounces a week fed in small quanticocoanut and three well-beaten eggs, ties at a time is a good average allow-What are you going to do with stirring briskly to prevent eggs ance per hen. It need not be fed ev-"I think I'll try pouring a little oil line with fine bread crumbs, pour the mixture into it and place in a pan of hot water and bake in a moderate over talh times, to feed in a certain way three-fourths of an hour. Serve hot and do other things that will save with wine sauce.

### BOYS LEAVE FARM FOR CITY FOR THE BEST OF COFFEE ERRORS OF BEGINNER HABIT OF EXCHANGING EGGS

Element of Common Sense Often Is Woefully Lacking.

Having Blundered in Initial Move He Now Proceeds to Crowning Folly of Purchasing Cheap Stock-Way for Success.

Practically all beginners are honest in their belief in the business, but it seems at times that the simple element of common sense is woefully lacking in the majority of cases—perhaps because common sense is not so common after all, writes W. B. Thomas, in Utility Pigeons.

Having blundered in his initial move, he now proceeds to the crowning folly of which he can be guiltyhe buys cheap stock because it is cheap. He is either victimized by the proverbially conscienceless dealer, or he takes the stock of some fellow who has already demonstrated himself a failure; in either case he gets a sorry lot of birds.

Now suppose that instead of committing the usual folly, the beginner applies a little of that golden specific that .I mentioned above,-common sense. Instead of an old shack, suppose he provides a good rat-proof house, built on plans approved by experienced breeders; then suppose he looks up some good, reliable breeder

Squabs One Week Old.

and invests in a few, well-mated working birds. Then, having posted himself as fully as possible by reading good pigeon literature, let him give s stock that careful attention indi pensable to the well-being of all living things, and it will not take a very talented prophet to predict a result quite at variance with the one first outlined.

Squabs die in the nest or are found on the floor or do not fatten up properly, when the old birds are not fed properly. A young squab is not to be compared with a young chick. A very young chick can run about and help itself to food and water and the other necessities of life; whereas the squab is utterly helpless at its birth, and is unable to walk and must be fed in the nest by the parent bird and with whatever the parent birds may feed it.

The watchful pigeon man is the one who gives his flocks the best of care. He keeps them in health by noting the first signs of ailment.

Hay Should Not Sunburn. The feeding value, as well as the market value, and palatability of hay is lowered by being sunburned. The feeding value is probably hurt mostaby the loss of leaves. Sunburned clover and alfalfa lose a large part of the leaves in handling, and this is the best part of the crop.

When the sun is shining very brightly the alfalfa or grass should not be left in the swath long. A large part of the curing should be done in the windrow and the cock. Most of the hay is then shaded and so the damaging effect of intense sunshine is reduced to the exposed portion. And a stock cover will still further lessen the injury from the sun as well as from rain.

There is nothing the matter with the hen that shows a bright eye and plow does fine work and one person had risen from the dead and still rea red comb. Exercise is a better laying stimu-

last for the hens han heat-producing condiments. Establish, if possible, a brand of eggs which will in itself be a guarantee of good quality.

Green food of some kind is necessary to make hens do their best in the line of egg production.

If taken at a very early age chickens can be taught to come and go at certime and annoyance.

Exercise of Little Care in Gathering and Selecting Will Net Advance Over Common Price.

There is no satisfaction and but very little money in exchanging eggs for groceries or grain. By being careful in gathering eggs, so that they won't become chilled in winter and so the hens won't sit on them over night and using a little care in sizing and selecting, quite an advance over

the common prices may be obtained. When possible, sell your eggs direct to the consumer. If not possible, get a market in your nearest city with some grocer who deals in strictly fancy groceries and provisions. Agree to furnish him only strictly fresh eggs, and then, for your own sake, live up to the agreement. Carefully clean all the eggs; don't send small, misshapen or large ones. Stamp each egg with a rubber stamp, using your initials or the name of your farm, and in a short time you will have created a demand for your eggs, and when you have created such a demand your eggs will bring the highest prices, considerably more than your storekeeper would pay.

Several neighbors should send their eggs together, paying a cent or two per dozen to one of their number for doing the business, and in this way all would gain a little.

### SOWING SEEDS TOO DEEPLY

Smaller Vegetables and Flowers Can Hardly Be Covered Too Lightly With the Soil.

More seeds are probably killed by sowing or covering too deeply than

too lightly. It is no uncommon thing to find small seeds covered with a quarter or over half an inch of soil.

Thousands so deeply sown perish, germs either never come to life at all or are quite unequal to coping with such a weight of covering earth. Only the larger seeds of vegetables

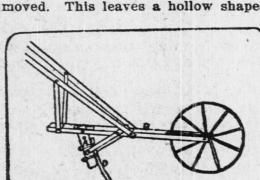

should be sown from a quarter to one inch in depth. Peas, beans and such like seeds may go underground two or three inches

ly, provided they are covered. that deep sowing ruins more seeds Acts, 1-11). In other words, heaven than any other fault or mistake.

### GARDEN PLOW MADE AT HOME

Implement Is Inexpensive, Easy to Put Together and Will Give Most Excellent Results.

A garden plow is a very useful article, but many people do not have garden enough to make it worth while buying one. I have a home-made plow that I find very useful. Any boy handy with tools can make one like it. writes Fred L. Doty of Mound Valley, Kan., in the Farmers Mail and Breeze. A and B are pieces of 2 by 4. At one end of B a rectangular hole is mortised into which A fits and is bolted. The other end of B is mortised out to form the forks for the 12-inch wheel. The wheel is from an old baby carriage, with the rubber tire removed. This leaves a hollow shaped

Home-Made Garden Plow. cultivation. A small cultivator shovel is entirely excluded. will answer the purpose. Other tools for garden working will suggest themselves to the ingenuity of the maker. on him as well as great things for The two iron strips bolted from A to himself. It means the reinstatement B have several holes at the upper end of our nature in all its lost honors, to make them adjustable. The handle in reconciliation with God. It means braces are also of iron strips. The handles are made of soft pine. This can do as much with it as three per-

sons can with ordinary hoes.

To Prevent Oat Smut. The Minnesota method: First, thoroughly clean the seed by rinsing it itation of glory and the communion through several waters, taking one of his presence. Cutting Injured Trees. Trees injured by freezing very often need to be severely cut back.

# The Ascension of Christ

By REV. JAMES M. GRAY, D. D. Dean of the Moody Bible Institute

TEXT-When he had spoken these things, he was taken up and a cloud received him out of their sight. Acts 1-9.

the Christian year is especially appropriate to consider that transcendant event in the earthly history of our Saviour referred to in these words viz: His ascension into heaven. The incarnation. death and resurrection of Jesus Christ are each and all of them incomplete withcut the ascension.

This period of

just as that event awaits the fruition. of its purpose in his return again to the earth; for it is not till then that the divine plan concerning his manifested kingdom will begin to ap-

proach fulfillment. But that which gives peculiar interest to Christ's ascension is its bearing on our spiritual life today, for if we are being established in the faith, enlightened in the knowledge of God, sanctified in our souls and anointed by the Holy Spirit for service, all blessings are the result of our Saviour's presence in heaven as our interceding high priest at the righthand of God.

At the ascension the body of Jesus did not vanish into nothing, for not only did the desciples see him as he went up, but Stephen beheld him afterwards, standing at the right-hand but the smaller vegetables and flower of God (Acts VII. 55-56). Moreover, seeds can hardly be covered too light- the angels on Mount Olivet said to the desciples that he would so come in It should always be borne in mind like manner as he was seen to go is a locality and Jesus Christ, the glorified God-man, is there. We cannot understand how the original body of Jesus was transmuted into his resurrection and glorified body, any more than we can understand how heavy wated is changed into light vapor, or dark flint into transparent glass, by heat; but we know that he is in the same body, although now in another form of existence and standing under other laws. How the thought dignifies our conception of human nature and broadens our idea of the scope of the atonement! The presence of his glorified body in heaven takes away any vagueness as to our own glorified bodies being there, if we have been united to him by a living faith-because he lives, we shall live

Was it not the reward of his obedience to the father in his sufferings and death on behalf of guilty men? Was it not the joy set before him for which he was willing to endure the cross, despising the shame? And yet there is more to follow, when, in the regeneration of the heavens and the earth, he shall sit upon the throne of his power in the sight of the whole universe, and every knee shall bow to him and every tongue confess that he is lord, to the glory of God the father

(Philippians II. 9-11). Of course we speak now, only of his human nature, of the God-man considered as the mediatorial prince. Such rim which rides over the ground bet terms do not pertain to his deity, in ter than a flat rim would. D is one which sense his glory could not be of the tools which may be used for enhanced and the thought of reward

> But the ascension of Jesus Christ means great things for us who believe our reception into Paradise and participation in endless felicity. If Christ mained on earth, we might have been assured of deliverance from the grave, and possibly a protracted residence here; but what we desire before all things is reunion with God, the hab-

cures this. Oh, you to whom these truths have no meaning, in whose esteem they are as foolishnesses, think what you are losing now, and shall forever lose, if they be true! I would have you follow the example of John Keble, who, conscious of his groveling thoughts which lay half buried, roamed lawlessly around this earthly waste, exclaimed,

"Chains of my heart, avaunt, I say-I will arise, and in the strength of love Pursue the bright track 'ere it fade away. My Savior's pathway to His Home

But it is useless to urge a man to weather and more frequently in very the cases are most wisely left alone. this "strength of love" of which the poet speaks? How can he pursue "the right track" whose eyes are blinded by sin other things of the present world." Who will seek the "honte above" unless he shall be awakened to its glories? It is God only who can accomplish these things in human experience, and he begins the work by weakening the ties of earth, and revealing the loathsomeness of sin and the peril of unbeliet

High Schools Aid In Developing Kentucky Fruit Growing.

### **60,000 TREES IN ONE PLOT**

Extensive Apple Growing Associations Launched In Roman and Hardin Counties-Movement Means Wider Use of Agriculture and Horticulture In Rural High Schools of the State.

The present year has seen a great impetus given to the fruit growing interests in Kentucky. Two different sections of the state have launched extensive co-operative apple growing associations. Both in Rowan and in Hardin counties the work has been helped and developed by our state department of agriculture. The department has furnished these counties

60,000 NEWLY GRAFTED APPLE TREES.

with four standard varieties of apple trees free of charge and has also agreed to advise and train the members of the association in the care and

When the newly grafted young trees were received by the association in Rowan county they were divided home gardens for the summer's growth. In Hardin county it was de-While plans were being discussed as to the best place and manner of caroffered to take the trees and carry them through the summer until transplanting time next autumn.

Just next to the high school at Elizabethtown a fertile piece of sod land was broken and carefully prepared for the tender young stock. The day the planting took place was made some thing of a gala day for the students, especially as two experts from the state agricultural station, a government expert and a Louisville newspaper man came to inspect the work.

When the 60,000 trees, enough to set 1,500 acres, were stacked in the side yard they did not look as if they would the Kentucky River, angling for finny tribe. require much time to plant. But after the bundles were opened and tiny

(CONTINUED.)

A Willing Captive.

His age was her own; all the land knew him and loved him for gallantry and brave capacity; he carried himself like a prince—and he forgot his errand to linger in her company. Dinner was soon over, and his horses at the door; there was the drilled and dutiful Bishop, trained servant that he was, leading his restless and impatient charge back and forth within sight of the windows and of the terrace where his young colonel tarried, absorbed and forgetful; man and beast alike had been in the service of the unhappy Braddock, and might seem to walk there lively memories of duty done and undertaken.

But dusk came; the horses were put up; and the next morning was well advanced before the abstracted young officer got at last to his saddle, and spurred on belated to Williamsburg. His business concerned the preparations then afoot for General Forbes' advance upon Duquesne. "I came here at this critical juncture," said Washington to the president of the council, "by the express order of Sir John St. Clair, to represent in the fullest manner the posture of our affairs at Winchester"-lack of clothes, arms, and equipage, lack of money, lack of wise regulations touching rank and discipline.

A Visit and a Pledge.

General Forbes had been in Philadelphia a month already, awaiting the formation of his army in Virginia; Sir John St. Clair, his quartermastergeneral, had come into the provinces to see that proper plans were made and executed; it was necessary that matters should be pressed forward very diligently and at once, and Washington, when once at the seat of government, was not slack to urge and superintend official action.

But, the troublesome business once in proper course, he turned back to seek Mrs. Custis again, this time at her own home, ere he went to the long distance of the frontier. The onset was made with a soldier's promptness and audacity. He returned to his post, after a delay too slight to deserve any reasonable man's remark, and yet with a pledge given and taken which made him look forward to the end of the campaign with a new longing as to the winning of a real home and an unwonted happiness.

This was not Washington's first adventure in love, but it was his last, and gave him a quiet joy which stood him in stead a whole lifetime.

No young Virginian could live twenty-six years amidst fair women in that hale and sociable colony without being touched again and again by the quick passion; and this man had the blood of a lover beyond his fellows.

Despite the shyness of a raw lad who lived much in the open, he had relished the company of lively women from the first, meeting their gay sallies sometimes with a look from his frank blue eyes that revealed more than he knew. Love had first found him out in earnest six years ago, when he was but just turned of twenty; and it had taken all the 'ong while since to forget his repulse at the hands of a fair young beauty in that day of passion.

An Earlier Love Affair.

Mary Phillipse had but taken his fancy for a moment, because he could not pass such a woman by and deem himself still a true Virginian. It was more serious that he had been much in the company, these last years, of a fair neighbor of the vivacious house of Cary, whose wit and beauty had haunted him in the very thick of campaigns upon the frontier, and who still mastered his heart now and again, with a sort of imperious charm,

Martha Washington.

in the midst of this very happy season when he knew Martha Custis his veritable heart's mistress for the future. It may well have made him glad of misadventures in the past to know his heart safe now.

The campaign dragged painfully, far into the dread autumn. December had come before the captured post on the Ohio could be left to the keeping of Colonel Mercer and a little garrison of provincials. But when at last he was free again there was no reason why Washington should wait longer to be happy, and he was married to Martha Custis on the 6th of January, 1759. A Brilliant Wedding.

The sun shone very bright that day, and there was the fine glitter of gold, the brave show of resplendent uniforms, in the little church where the marriage was solemnized. Officers of his majesty's service crowded there, in their gold lace and scarlet coats, to see their comrade wedded: himself came, clad as befitted his rank; and the bridegroom took the sun not less gallantly than the rest, as he rode, in blue and silver and scarlet, beside the coach and six that bore his bride homeward amidst the thronging friends of the country-side. The young soldier's love of a gallant array and a becoming ceremony was satisfied to the full, and he must have rejoiced to be so brave a horseman on such a day.

For three months of deep content he lived with his bride at her own residence, the White House, by York river side, where their troth had been plighted, forgetting the fatigues of the frontier, and learning gratefully the new life of quiet love and homely

These peaceful, healing months gone by, he turned once more to public business.

Six months before his marriage he had been chosen a member of the wise. house of burgesses for Frederick county-the county which had been which ever since Braddock's fatal rout he had maintained his headquarters striving to keep the border against the savages.

Leads the Poll.

Small wonder that he led the poll taken there in Winchester, where through so many seasons men had seen him bear himself like a capable man and a gallant, indomitable soldier. 'Twas no unwelcome duty, either, to take his young wife to Williamsburg in "the season," when all Virginia was in town in the persons of the burgesses and the country gentry come to enjoy the festivities and join in the business then sure to

The young soldier was unused to assemblies, however, and suffered a keen embarrassment to find himself for a space too conspicuous amidst the novel parliamentary scene. He had hardly taken his seat when the gracious and stately Robinson, speaker of the house and treasurer of the colony these twenty years, rose, at the bidding of the burgesses, to thank him for the services of which all were speaking.

Speechless With Emotion. This sudden praise, spoken with

generous warmth there in a public knew how to meet. He got to his feet when Mr. Speaker was done, but he could not utter a syllable. He stood there, instead, hot with blushes, stammering, all a-tremble from head to of management, and the slow organifoot, "Sit down, Mr. Washington," cried the speaker; "your modesty is equal to your valor, and that surpasses the power of any language that I possess."

Again and again, as the years passed, Washington returned at each session to Williamsburg to take his place in the assembly; and with custom came familiarity and the ease and firmness he at first had lacked upon the floor. His life broadened about him; all the uses of peace contributed to give him facility and knowledge and a wide comradeship in affairs. Along with quiet days as a citizen, a neighbor, and a country gentleman, came maturity and the wise lessons of a various experience.

Married a Fortune. No man in Virginia lived more or with a greater zest henceforth than Colonel Washington. His marriage brought him great increase of wealth, as well as increase of responsibility. Mr. Custis had left many thousand acres of land, and forty-five thousand pounds sterling in money, a substantial fortune to the young wife and the two little children who survived him; and Washington had become, by special decree of the governor and council in general court, trustee and manager of the whole. It needed capacity and knowledge and patience of no mean order to get good farming out of slaves, and profitable prices out of London merchants; to find ompt and trustworthy ship-masters by whom to send out cargoes, and induce correspondents over the sea to ship the perishable goods sent in return by the right vessels, bound to the nearest river, and the bigger your estate the more difficult its proper conduct and economy, the more disastrous in scale the effects of mis-

management.

Tobacco a Potent Factor.

No doubt the addition of Mrs. Custis' handsome property to his own broad and fertile acres at Mount Vernon made Colonel Washington one of the wealthiest men in Virginia. But Virginian wealth was not to be counted till crops were harvested and got to market. The current price of tobacco might leave you with or withdon, your only clearing-house, as it gentle brother. It was still dangerous chanced. Your principal purchases, to cress or thwart him, indeed, Poachtoo, must be made over sea and ers might look to be caught and through factors. Both what you sold soundly thrashed by the master himand what you bought must take the hazards of the sea voyage, the whims of sea captains, the chances of a for-To be farmer and merchant at once,

manage your own negroes and your own overseers, and conduct an international-correspondence; to keep the run of prices current, duties, port dues. and commission, and know the fluctuating rates of exchange; to understand and meet all changes, whether in merchants or in markets, three thousand miles away, required an amount of information, an alertness, a steady attention to detail, a sagacity in farming and a shrewdness in trade, such as made a great property a burden to idle or inefficient men.

Successful Business Man. But Washington took pains to succeed. He had a great zest for business. The practical genius which had the new governor, Francis Fauquier, shown in him almost prematurely as a boy now grew heartily in him as a man of fortune. Messrs. Robert Cary & Co., his factors in London, must soon have learned to recognize his letters, in the mere handling, by their bulk. No detail escaped him when once he had gotten into the swing of the work. They must be as punctillious as he was, they found, in seeing to every part of the trade and accounting with which he intrusted them, or else look to lose his lucrative patronage.

how to make the best tobacco in Virginia, and to get it recognized as such "George Washington, Mount Vernon," were ere long suffered to pass the inspectors at the ports of the British West Indies without scrutiny. It was worth while to serve so efficient a man to his satisfaction; worth while or not, he would not be served other-

Washington had emerged, as it were, after a tense and troubled youth, ington drank only small beer or cider his scene of adventure in the old days upon a peaceful tract of time, where and a couple of glasses of Madeira at of surveying in the wilderness, and in his powers could stretch and form themselves without strain or hurry.

He had robust health, to which he gave leave in unstinted work, athletic regimen as a soldier. strength, and an an insatiable relish for being much afoot and in the open, which he satisfied with early rounds of superintendence in the fields where the men were at their tasks, with many a tireless ride after the hounds, or steadfast wait at the haunts of the deer; a planning will that craved some practical achievement every day, which he indulged by finding tasks of betterment about the estate and keeping his men at them with unflagging discipline; a huge capacity for being useful and for understanding how to be so, which he suffered his neighbors, his parish, his county, the colony itself, to employ when there was

A Competent All-Round Man. To a young man, bred these ten years in the forests and in the struggle of warfare upon a far frontier, it had been intolerable to live tamely, without executive tasks big and various enough to keep his energy from rust. The clerical side of business he had learned very thoroughly in camp, as well as the exceeding stir and strain of individual effort-the incessant letter writing necessary to keep place, was more than Washington promised performance afoot, the reckoning of men and of stores, the nice calculations of time and ways and means; the scrutiny of individual men, too, which is so critical a part zation of effort. He had been in a fine school for these things all his youth, and would have thought shame to himself not to have learned temperance, sagacity, thrift, and patience

> A Model Family Man. His happy marriage did him the service to keep him from restlessness. His love took his allegiance, and held

wherewith to use his energy.

him to his home as to a post of honor and reward. He had never before had leave to be tender with children, or show with what a devotion he could preside over a household all his own. His home got strong hold upon him. His estates gave him scope of command and a life of action.

'Twas no wonder he kept his factors busy, and shipped goods authenticated by the brand.

The soldierly young planter gave those who knew him best, as well as back, and the hard ride for hours tothose who met him but to pass, the impression of a singular restraint and self-command, which lent a peculiar dignity and charm to his speech and carriage. They deemed him deeply passionate, and yet could never remember to have seen him in a passion. The impression was often a wholesome check upon strangers, and even upon friends and neighbors, who be found in the colony in his Blue-

Terrible in His Wrath.

bursts of passion often enough in pace together in the field. and discipline of such scenes, how he It had been hard and anxious work must curb and guard himself against for Washington to get his affairs, in-

or command made in his youth that had given him the fine self-poise men noted in him now.

He had been bred in a strict school of manners at Belvoir and Greenway court, and here at his own Mount Vernon in the old days, and the place must have seemed to him full of the traditions of whatsoever was just and self if he chanced their way. Negligent overseers might expect sharp penalties, and unfaithful contractors a strict accounting, if necessary work went wrong by their fault.

Always Open to Conviction. He was exacting almost to the point of harshness in every matter of just right or authority. But he was open and wholesome as the day, and reasonable to the point of pity in every affair of humanity, through it all. Now it was "my rascally overseer, Hardwick," in his diary, when certain Carolina, where he held a responsimares were sent home "scarce able to highlone, much less to assist in the business of the plantations;" but not promotion by the Mason-Hanger a month later it was "my worthy Company and has returned to his overseer, Hardwick, lying in Winchester of a broken leg." It was not in his way to add anything to the compliment to be again chosen and see us at 232 West Main street. 11-tf penalties of nature.

A quiet simplicity of life and genuine love of real sport rid him of monly to be found drunk after dinner Phone 72 and 144. Covington, Thorpe & -outside New England, where the efficient Puritan church had fastened so singular a discipline in manners upon a whole society-and Virginian gentlemen had a reputation for deep drinking which they had been at some pains to deserve.

A rural society craves excitement, and can get it very simply by such He was not many years in learning practices. There is always leisure to sleep afterwards, even though your dinner came in the middle of the day, in England. Barrels of flour marked and there is good reason you should be thirsty if you have been since daybreak in the saddle.

Not a Hard Drinker.

To ride hard and to drink hard seemed to go together in Virginia as inevitably as the rhymes in a song. and 'twas famous hard riding after the fox over the rough fields and through the dense thickets. If Washdinner, it was no doubt because he had found his quick blood tonic enough, and had set himself a hard

He did not scruple to supply drink enough for the thirstiest gathering when he presented himself to the voters of the countryside as a candidate for the house of burgesses. "A hogshead and a barrel of punch, thirtyfive gallons of wine, forty-three gallons of strong cider, and dinner for his friends," was what he cheerfully paid for at his first election, and the poll footed but a few hundred votes

Mount Vernon saw as much company and as constant merriment and good cheer as any house in Virginia; and the master was no martinet to his guests, even though they came upon professional errands. "Doctor Laurie came here, I may add, drunk," says his quiet diary, without comment, though the doctor had come upon summons to attend Mrs. Washington, and was next morning suffered to use his lancet for her relief. No doubt a good fellow when sober, and not to be lightly chided when drunk, like many a gallant horseman and gentleman who joined the meet of the countryside at the hospitable place to follow the hounds when the hunting was

Fox Hunting Winter and Summer. There was fox hunting winter and summer, in season and out, but the sport was best in the frosty days of January and February, when the year was young and the gentlemen of the country round gathered at Belvoir or Gunston Hall or Mount Vernon two or three times a week to warm their blood in the hale sport, and dine together afterwards-a cordial company of neighbors, with as many topics of good talk as foxes to run to cover. The hunt went fastest and most incessantly when Lord Fairfax came down from his lodge in the valley and joined them for days together in the field and at the table.

Washington loved horses and dogs with the heartiest sportsman of them

He had a great gusto for stalking deer with George Mason on the broad forested tracts round Gunston Hall, and liked often to take gun or rod after lesser game when the days fell dull; but best of all he loved a horse's gether after the dogs and a crafty quarry—a horse it put a man to his points to ride, a country where the running was only for those who dared. A Judge of Horseflesh.

His own mounts could nowhere be bettered in Virginia. There was fulf blood of Araby in his noble Magnolia, and as good hunting blood as was to would have sought to impose upon skin and Ajax, Valiant and Chinkling. His hounds he bred "so flew'd, so sanded," so matched in speed and No doubt he had given way to habit, that they kept always tune and camp and upon the march, when in- more tuneable was never holla'd to, efficiency, disobedience, or cowardice nor cheered with horn," than theirs angered him hotly and of a sudden. When they were let "spend their There were stories to be heard of mouths" till echo replied "as if anmen who had reason to remember other chase was in the skies." Twas

surprise, and it was no doubt trials to prosperous shape again when

the war was over, and those long, hopeless summers on the stricken frontier. Stock, buildings, fenceseverything had to be renewed, refit-

ted, repaired.

For the first two or three years there were even provisions to buy, so honest and lovely and of good report | ready money, but all he got by his out a balance to your credit in Lon- as he looked back to the time of his marriage, too, and more besides, was swallowed up, and he found himself in debt before matters were finally set to rights and profitable crops made and marketed. But, the thing once done, affairs cleared and became easy as if of their own accord in the business of the estate.

"I haven't seen them yet. I can't let out the machine here, of course, butwas that a dog?" "Poodle."

"But it seems all right."

Around a curve ahead darted a blueuniformed figure on a motor-cycle, one arm raised. Stanton instantly checked his car, Floyd throwing out his hand In warning to those behind. There was a mad series of explosions from the abruptly halted motor-cycles in pursuit.

"You're under arrest!" shouted three voices at once, as the Mercury slid to a standstill.

"Is it possible?" inquired the driver,

removing his goggles. Two more motor-cycle officers were coming up, three mounted on horses were arriving from side-paths. Surrounded by the outraged eight and all the population in the neighborhood,

"Will you follow to the police station, or will we have to take you?" came the crisp question. "We've got your number."

the Mercury stood quiescent.

"I'll follow wherever you like," engaged Stanton. "Lead the way." They started, preceded by one officer

and followed by another, also by a shabby young man on a bicycle. Into the station they went, accompanied by their three attendants.

The charge was three fold: exceeding the speed limit by some fifty miles an hour, resisting arrest, and violating the smoke ordinance. That set forth, the usual interrogatory was put. Stanton replying with concise brevity.

"Name and age?" "Ralph Stanton, twenty-six."

"Occupation?"

"Automobile driver." "Name of car?"

"Mercury." "Owner?"

"The Mercury Company." The shabby young man interrupted proceedings by a stifled gasp, grasping the sleeve of Floyd, who stood looking

"That's Stanton? Stanton? And you -who are you?"

"Jes Floyd, his mechanician," was the wondering response.

Stanton glanced that way, as Floyd was drawn to the other side of the room by his excited captor, but turned back to answer the remainder of the examination. When the ceremony was ended, he signaled to his mechani-

"Come: I've got to go before the magistrate and give bail," summoned impatiently.

Floyd came across to him, shiningeyed and eager.

country to secure legislation for the benefit of the highways. Most of the into the situation and it was believed constituents of members apparently for some time that conservative sendo not understand how to go about the work of getting what they want. The petitions in the main are not directed along the short routes of legislation, but are principally requests

Of Equal Importance.

Members of congress from rural districts seem to believe with their constituents that the land highways are of just as much importance as the river highways, and that in these days of automobiles for pleasure and business highway improvement will lead to increased interstate commerce activity and that the government rather than the states should undertake the work of making easy communication by land possible.

There are Democrats in both houses who oppose the good roads movement on the ground that it is a violation of states' rights. These Democrats say that the states should legislate each in its own behalf.

The friends of government road building say that interstate commerce is involved indirectly if not directly, and that the constitution will not be blamed if the government should appropriate money to make commerce between the states easy. In truth, the men who hold to the states' rights theory do it, it is hinted, because it is an easy way of objection that because test of the courts.

The belief seems to be that the Democrats will support the chairman of the house rules committee in his attempt to secure the appointment of in the house. a new committee of the house to give its attention to matters concerning highways.

Automobile Is Responsible. The automobile industry, of course, is interested in good roads, and one of the arguments that has been used against government aid for highway | crats who sit on the other side of the building has been that private manmoney to benefit their business. The automobile men apparently do want good roads, but it probably may be accepted as true that if the automobile never had been invented there would be no great cry at present from the country for government aid in the construction of roads. The automobile in its various forms, it is urged, has added to the usefulness in a commerce sense, to say nothing of the a pleasure sense, of the roads of the

Daniels Denounces Those Who Misconstrued His Orders.

Credits Report, that U. S. Is Facing a Crisis Because of Alien Land Bill, to Unscrupulous Press.

Washington, May 19 .- Secretary of the Navy Daniels deplored the "war scare" created in this country over the Japanese-California situation and get the promotions they wished how- pany threw pieces of iron, bags of denounced the efforts to construe recent orders for the movement of ships of the navy and men of the army as more money for its experimental ly was compelled to take naval af wrecked, the crew driven from it and this country for a struggle at arms has ordered every ship in the Pacific ocean to hold its present anchorage. because if one vessel were moved it would add only to the war stories. The secretary said:

> al struggle; the reported statements lic tariff hearings motion. that 'the truth of the affair has been withheld and the public deceived by as far as the public will permit itself to be misled by the image-making power of a certain and unscrupulous portion of the press.

"If there had been even the slightest justification for the publication nevertheless gave the impression that of the war scares I would be the first free sugar and wool might lead him to want the people to know the truth. However, there is not, and I protest against the highly colored misinforma-St. Paul, May 19.—The Norwegians, tion which the people are now being Louisiana, who already have bolted fed by some publications.

"The danger in this character of publication is not confined to the boundaries of the United States. It is spread throughout the civilized world, in Japan and elsewhere. Thus the people of every nation are given erroneous impressions; they are without the true facts, and the radical element demand reparation."

London, May 19 .- "Should war break out the sympathies of Australia, New Zealand and western Canada would be violently on the side of the United States," says the Pall Mall alien land ownership controversy.

The newspaper considers that it would be a grave mistake to underestimate the chances of a conflict between the United States and Japan. It savs:

"The opinion that the Japanese will never go to war to enforce their treaty rights in California is one of those dangerous generalities which lead nations blindfold to the brink of the

The Pall Mall Gazette expresses the opinion that there are several reasons why Japan may be desirous of forcing the issue at the present moment. The most obvious of these is the pending opening of the Panama canal, while a more remote one is connected with the condition of her internal politics. The article continues:

"The point at issue—the exclusion of Asiatics from permanent settlement -touches the British empire very nearly."

Washington, May 19 .-- The state department apparently is awaiting final action by Governor Johnson upon the alien land bill before replying to the Japanese note of protest.

Pleads "Not Guilty" to Shooting. Upper Sandusky, Ohio, May 19 .-John Brodman, who is worth nearly at his home, 2213 Cumberland street, land. His attorneys pleaded "Not that the crisis is passed. It is not which they were riding was struck by guilty" and he was released on an expected that Coombs will get into a B. & O. express train at Leavitts-\$8,500 bond. His defense will be in the game again this season.

SOCIALIST QUIZ AT MINES IS ON

Investigating Body Headed by **Eugene Debs to Report** to Wilson

### MEN ARE NOW BACK AT WORK

United Mine Workers of America Still Unrecognized-Operators Are Opposed to Federal Probe Started by Senator Kern.

Charleston, W. Va., May 17 .- The Socialist probe committee headed by Eugene V. Debs, Socialist, former Congressman Victor L. Berger and Adolph Germer of Illinois, arrived here to investigate conditions in the West Virginia miners strike and make a report to President Wilson. Men Have Returned to Work.

The situation in the coal fields of the state is undecided. A peaceful condition now seems to prevail in the Kenawha field, where the miners have returned to work as a result of proposals of Governor Hatfield, providing for a check weighman, a tonnage of 2,000 pounds, a semi-monthly pay and prevention of discrimination.

The United Mine Workers of America has not been recognized by the operators. Most of the American miners have left the Kanawha field and taken employment in adjoining

Operators Opposed to Investigation. Conditions in the New River field, where the miners recently organized District No. 29 with a membership of 15,000, are also uncertain. At a special convention of the miners, the coal operators granted all asked by Governor Hatfield in his recommendations to the Kanawha field, but refused to meet with the miners.

United States Senator Kern's resolution providing for a federal investigation of the coal fields is generally favored by the miners and opposed by the employers and state officials, who claim it unwarranted.

Senator Walsh of Montana while less direct in his threats of reprisals, to oppose the bill.

With Walsh and Newlands, together, with Ransdell and Thornton of the party, voting with the Republicans, the Democratic majority would be wiped out.

### MRS. JOHN J. ASTOR IS ILL

Widow of Titanic Victim Will Return to Country to Regain Health.

New York, May 19 .- Mrs. John Jacob Astor is ill and is preparing to leave for the country, where it is hoped the return to our-of-door life, of Gazette in discussing the California which she is very fond, will restore her former splendid health.

Mr. W. H. Force, her father, admitted that she was far from well, and is under the doctor's care.

"The baby," said Mr. Force, "has practically lived out of doors since it was born, and is a fine, big, healthy child. We call him the 'fresh air baby,' because he has certainly thrived on that sort of life."

### PRINCESS OF PRUSSIA WEDS

Daughter of Frederick Leopold Married to Henry XXXIII. of Potsdam, Wearing Ancient Bridal Crown.

Potsdam, Germany, May 19 .- The marriage of Prince Henry XXXIII. of Reuss and Princess Victoria Margarete of Prussia, only daughter of Prince Frederick Leopold of Prussia, was celebrated at the new palace here. The ceremonial was the same as is to be employed in Berlin on May 24 at the nuptials of her friend and comrade Princess Victoria Luise, the only daughter of Emperor William.

RESCUERS DESCEND INTO PIT AND RECOVER THE BODIES OF FIFTEEN OHIO MINERS.

Hero Dies in His Effort to Reach the Workmen-Overcome By Gas Fumes.

Western Newspaper Union News Service. Beile Valley, O .- The burned and blackened bodies of the 15 coal miners who lost their lives in two explosions in the Imperial mine here were recovered by rescuers, after the gas in the mine had vanished sufficiently to allow rescuing parties to enter in search of the bodies.

The entire town of Belle Valley, which is about 1.000 in population. was gathered at the mine pit and among the spectators were the relatives of the dead miners, whose grief was pitiable. As each body was brought to the surface it was taken with the Japanese. He announced he Free Sugar and Wool Subject to Re- into the engine room of the mine, which had been turned into a morgue, and there undertakers prepared it for burial. The rescue equipment of the Cambridge Colleries Co. was taken to the scene, but it was not necessary to use it, as all knew that the miners could not survive the terrible gas, as one member of the rescue party, Henry Fairhurst, died a few minutes after being carried to the open air; so the miners waited a few hours longer until the fire damp or gas had subsided.

Fairhurst was one of the heroes of the disaster. He, with the other members of the rescue party, entered the
